-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3727

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Robbins, III et al. (Robbins).

Robbins discloses a trash container kit comprising three separate pieces, a first piece is a trash container body having front, back, floor and side panels, a second piece is a bag liner for the trash container body and the third piece is a cover having a rim 2 and a hinged lid 15 (see col. 5, third full paragraph). The trash container kit can be shipped in a disassembled state.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 and 17-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Robbins in view of Kumakawa.

This rejection is made with respect to claims 1, 2 and 21 if it should be deemed that the trash container panels must be capable of being disassembled. Robbins discloses the invention except for the post and socket arrangement

Kumakawa teaches panels that disassemble with a post and socket arrangement for attachment and assembly of panels. It would have been obvious to modify the panels of Robbins to disassemble in order to form a knockdown container body to form a configuration for the body

which can be disassembled into a number of flat panels to eliminate wasted space and decrease the amount of space needed to ship numerous container bodies.

Re claim 4, Official notice is taken that cross-bracing is well known. It would have been obvious to add cross-bracing to reinforce the panels and the assembled trash container body.

Re claims 17-20, Official notice is taken that the latch and hinge arrangement are well known. It would have been obvious to add the latch and to provide a hinge pin arrangement to provide securement of the lid so that unauthorized or inadvertent opening is eliminated and to provide a hinge pin arrangement to form a pivoting action that is smooth and aligned so that the lid doesn't become bound or frozen in any position and so that the lid closes and latches properly.

Claims 5-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Castellano whose telephone number is 571-272-4535. The examiner can normally be reached on M-Th 6:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan J. Newhouse can be reached on 571-272-4544. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
